

465L LIGHTBAR

LED Halfbar Series

The 465L series lightbars combine revolutionary optical design with state-of-the-art LED technology to provide the most powerful emergency warning systems available. The 465L offers fully integrated multi-level warning capabilities with unprecedented control flexibility. The TOMAR model 465L is manufactured to mount flush onto ambulance boxes or to be permanently mounted to the roofs of fire apparatus.

Bright LED Lamps!

TOMAR's LED lamps use TOMAR designed wide angle optic lenses along with LED collimators to produce the brightest, highest efficiency light beams the industry has ever seen. The LED lamps can directly replace any 12 or 24V RECT-37 halogen lamp applications.

LED Flashers

TOMAR has incorporated EEPROM user programmable memory, state of the art 6 amp smart driver chips, and SAE J1708 communications to provide the ultimate 24 channel LED flasher.

Electrical Specification

12--28VDC operation, 3 amps average (48" lightbar)

Available Options

Lightbars can be configured with optional Takedown, Alley lights, Work lights and Stop-Turn-Tail lights.

Warranty Information

Five year warranty on LED controllers and LED lamp modules.

Ordering Information and Lamp Colors

For customers requiring more than our standard features, we offer additional options to further enhance and customize each lightbar to meet their state or local regulations. Please call our sales department or distributors for ordering information of all available configurations and options. See product pages RECT-34L and RECT-37L for available lamp colors.
