

## 930NH and 930NH1 LIGHTBAR

### HELIOBE™ Lightbar Series

The 930NH HELIOBE™/Halogen lightbar is a lower cost alternative to our strobe or LED lightbars. These lightbars use a combination of strobe and halogen for eye catching attention. The 930NH features a synchronized halogen and strobe flash pattern with an indestructible potted strobe power supply and halogen controller.

( rear view )

#### Xenon Strobe Lamps

All strobe lamps are water-tight, Hermetically sealed Xenon lamps with chrome coated reflectors for maximum reflector efficiency and long life.

#### Halogen Lamps

TOMAR halogen lamps use twist-out automotive 12V halogen bulbs rated at 27 watts each, which can be upgraded to 35 watts.

#### Available Options

Lightbars can be configured with optional Takedown, Alley lights, Work lights and Stop-Turn-Tail lights.

#### Electrical Specification

12VDC draws 19.5 amps average @ 12.8VDC (48" lightbar)

#### Warranty Information

Ten year warranty on NEOBE® power supply and two year warranty on all other parts except halogen lamps.

#### 930NH1 HELIOBE™ Lightbar

The 930NH1 provides 180 degree emergency warning light coverage, perfect for applications where rear facing lamps are not needed.

#### Ordering Information and Lamp Colors

For customers requiring more than our standard features, we offer additional options to further enhance and customize each lightbar to meet their state or local regulations. Please call our sales department or distributors for ordering information of all available configurations and options. See product pages RECT-34 and RECT-37 for available lamp colors.
